Stars of the Sea

Seasalt, the newest addition to Alila Seminyak, is ready to serve you with selections of delicious seafood cuisine, using fresh ingredients with a twist of Japanese flavors. The restaurant turns the stars of the ocean into exquisite dishes - expect to indulge in White Snapper, the signature sea salt baked fish. Other must-try dishes are Niçlçoise (a French salad created with Katsubushi and black miso) and Blue Swimmer Crab, a crab dish with mayonnaise and *chawanmushi*. The restaurant's design is just as interesting as the dishes with the use of ocean colors dominating the interior and unique decoration that will make you feel as if you're dining on a boat.
